For over 50 years **ColdFront** has been at the leading edge of climate control products and service for transportation and industry. A recent acquisition has resulted in **ColdFront** not only doubling in size but also extending our scope across Western Canada.

### **What is the Role?**

The **Mobile Transport Refrigeration (Reefer) Technician** role is based out of our Calgary, Alberta Shop and reports directly to the Service Manager. As a Mobile Technician, you will work off site providing and performing technical tasks to aid in the assembly, installation, operation, maintenance and repair of cooling/heating systems, components and mechanical equipment to our remote customers.

### **“You” the Candidate:**

Are you a motivated “mechanically inclined person” with a drive to understand how items work by taking them apart and then putting them back together successfully to its original working functionality. Equally, are you seeking an opportunity to develop your professional acumen within a company that continues to grow, while fostering a positive work environment that dedicated to its’s natural resource; the employees. If yes, then this is an opportunity that is perfect for you!

### **Responsibilities of this position include:**

- The Mobile Transport Refrigeration (Reefer) Technician will maintain and repair trailer reefer (refrigerator) units
- Main duties will be to troubleshoot, diagnosis, and repair components on refrigeration units
- Conduct quality preventative maintenance responsibilities
- Ensure work is completed to standard
- Other shop related duties as assigned

### **Required Education, Skills and Qualifications**

- Education/Training with a recognized Post-Secondary Trade Institution
- Work effectively as both a team player and an individual contributor
- Excellent communication skills; listening, written and oral
- Ability to multitask, prioritize, and manage time effectively
- Proficiency with all tools of the trade
- Previous experience with Reefer and A/C units (Carrier - Transicold reefers and APU's, Webasto & Proheat heaters) in the transportation industry
- Previous experience working on refrigerated and heated trailers would be an asset
- Technical aptitude

**What we offer:**

- Competitive salary
- Medical and dental benefits
- The chance to be part of a fast-growing company in an exciting industry
- A supportive work environment that respects personal life obligations

**Now that you're interested, what do you do next?**

If this opportunity sounds like the right fit for you, please submit your resume today.

We welcome all applications; however only those candidates who meet the requirements and are shortlisted will be contacted.

ColdFront is an equal opportunity employer.

**About us:**

**ColdFront** is the authorized dealer for Carrier Transicold in British Columbia, Alberta and Saskatchewan providing sales, parts and service support of temperature-control equipment, Auxiliary Power Units (APU'S), Gensets and Telematics for Transportation and Industry. We also support several other industry-leading product offerings, including Webasto, Pro-Heat, Red Dot and MEI, providing engine-off and hydraulic heaters, and in-cab air conditioning.
