

AUDIT OBSERVATION TOUR TEMPLATE

The audit observation tour is an important component of the audit validation process. It is done for two reasons:

- To verify information obtained from documentation and interviews,
- To verify adherence to established organization standards.

INSTRUCTIONS:

- The auditor walks through the worksite(s) and verifies through observation the items identified in the <u>audit questions</u> outlined below.
- As the items are observed, the auditor notes their location and uses the "Notes" column to record what they saw.
- An employee from the organization being audited must accompany the auditor during the observation tour. This is important in the event that on-thespot changes need to be made in response to conditions observed (e.g. the existence of dangerous work).

OBSE	RVATION TOUR CHECKLIST				
Q#	Question	YES	NO	N/A	Examples
Mana	gement Leadership and Organizational Commitme	ent			
1.2	Health ad Safety Policy is readily available to employees either in paper form, downloaded or stored electronically.				
1.11	Health and Safety Legislation is readily available to employees either in paper form, downloaded or stored electronically.				
Hazai	rd Control				
3.2	Select several engineering controls from formal hazard assessment documents and record them below. Confirm their availability through observations. Ensure engineering controls identified in relation to highest
